

## **Senior Scientist/ Program Manager.**

**Location:** Dundee, Scotland.

### **DUTIES & RESPONSIBILITIES**

Reporting to the Head of Research, you will be supporting the development of Cyclacel's drug development programs, by providing:

- Program management of preclinical and/or early clinical stage haemato-oncology drug candidates, including external vendors and collaborators
- Primary expertise and input into scientific strategy for relevant programs
- Liaison with relevant CROs and external collaborators, to ensure preparation of protocols, data analysis, report preparation and review
- Coordination of translational research activities to support haematological and/or solid tumour development strategy for the company's compounds
- Analysis and interpretation of biological data for non-clinical decision making
- Planning and management to meet milestones, timelines and budgets
- Assistance in compilation of regulatory submissions
- Assistance in identification of and application for, appropriate grant funding and collaborative research opportunities
- Evaluation of complex project risks and issues; both existing and potential programs new to the company
- Project troubleshooting.

### **EDUCATION**

- PhD in molecular life science

### **KEY SKILLS & EXPERIENCE**

- Strong working knowledge of oncology drug development and / or translational research, with a minimum of 5 years' industry experience in the human medicine life sciences field
- Experience working in multidisciplinary teams in a biotech or pharmaceutical industry environment, is preferred
- Proven track record in human medicine life sciences or haemato-oncology
- Publications /presentations in peer-reviewed journals or conferences
- Demonstrable experience in the following is advantageous but not essential:
  - small molecule or biologic drug development

- biomarker development
- precision medicine
- Highly computer literate, including Microsoft Office and appropriate scientific software
- Flexible, enthusiastic and well organised, with the ability to work independently within a multidisciplinary team
- Strong communication and reporting skills
- Excellent interpersonal skills, complemented by a positive, can-do attitude and proactive approach.

To apply for the above position, please send your CV with an accompanying letter either via email to [recruitment@cyclacel.com](mailto:recruitment@cyclacel.com); or by post to Human Resources, Cyclacel Limited, Dundee Technopole, James Lindsay Place, Dundee. DD1 5JJ. UK.

Closing date for applications is **end of August, 2018**.

We look forward to hearing from you.

Cyclacel Pharmaceuticals, Inc. is an Equal Opportunities Employer.
